National Certificate in Joinery with strands in Cabinetry, Exterior Joinery, and Stairs

Level 3-4

Credits 96-145

Purpose

This qualification recognises people who have demonstrated competence in the skills and knowledge required to work in one of the specialist joinery areas of cabinetry, exterior joinery or stairs. They are able to carry out many of the tasks required in general joinery, and are able to work competently on any task within their speciality.

The compulsory section of the qualification covers the knowledge and skills related to operating a range of joinery machines, and manufacturing glulam components. The strands enable candidates to select standards that fit with their job role requirements.

This qualification builds on the National Certificate in Joinery (Introduction) [Ref: 0385]. The core compulsory and strand compulsory standards of this qualification are all included in the compulsory section of the National Certificate in Joinery (Craftsperson) [Ref: 0386].

Special Notes

Prerequisite: National Certificate in Joinery (Introduction) [Ref: 0385], or the demonstration of equivalent knowledge and skills.

Requirements for Award of Qualification

Award of NQF Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided in section 7 of the New Zealand Qualifications Authority (NZQA) Rules and Procedures publications available at <http://www.nzqa.govt.nz/ncea/acrp/index.html>.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (ID). Any version of a standard with the same ID may be used to meet qualification requirements that list the ID and/or that specify the past or current classification of the standard.

For detailed information see [Review Summaries](#) on the NZQA website.

People currently working towards version 4 of this qualification may either complete the requirements for that version or transfer their results to version 5.

The last date for entry to training programmes or courses for versions 2 to 4 is 31 December 2009.

Any candidate who feels that they have been disadvantaged by these transition arrangements should contact the Joinery Industry Training Organisation at the address given below.

Previous versions of the qualification

Version 4 was republished in April 2006 in order to correct transition dates. Standards 19605 and 21811 were added to the Cabinetry Strand Elective.

Version 3 was issued to take account of reviewed standards. Standard 9801 increased in level from 2 to 3; and standard 97 increased in credit value.

Version 2 of this qualification was reviewed and the content of the specialist strands were changed as a result.

People who require information on the content of version 1, or the transition process, should contact the Joinery Industry Training Organisation.

Certification

This certificate will display the logos of NZQA, the Joinery Industry Training Organisation and the accredited organisation.

Quality Management Systems

Providers and Industry Training Organisations must be accredited by a recognised Quality Assurance Body before they can register credits from assessment against standards. Accredited providers and Industry Training Organisations assessing against standards must engage with the moderation system that applies to those standards. Accreditation requirements and the moderation system are outlined in the associated Accreditation and Moderation Action Plan (AMAP) for each standard.
