National Diploma in Public Sector Compliance Management (Weights and Measures) (Level 6)

Level 6

Credits 147

Purpose

This qualification is for people who are planning a career or who are employed in the Ministry of Consumer Affairs, Measurement and Product Safety Service (MAPSS).

The qualification is structured to recognise the generic skills, knowledge, understanding, attitudes and values required to be a competent Inspector of Weights and Measures.

People who hold this qualification have the competence to undertake a broad range of legal metrology activities, and to carry out a mix of specialised operations involving a degree of self directed work.

This qualification can build on the National Certificate in Public Sector Services [Ref: 0714]. It can lead to the proposed National Diploma in Public Sector Services, and the specialist unit standards in this qualification will form one of the specialist electives in that diploma.

Special Notes

Many Measurement and Product Safety Service officers already working as weights and measures inspectors, while not holding recognised qualifications, may already have the competence specified in the outcomes of individual unit standards included in this diploma. Those people are able to seek recognition of current competence through work place assessors or accredited providers.

Credit Range

Level 3 credits	7
Level 4 credits	-
Level 5 credits	8
Level 6 credits	132
Total	147

Requirements for Award of Qualification

This qualification will be awarded to people who have met the requirements of the compulsory section.

Award of NQF Qualifications

Credit gained for a standard may be used only once to meet the requirements of this qualification.

Unit standards and achievement standards that are equivalent in outcome are mutually exclusive for the purpose of award. The table of mutually exclusive standards is provided in the Qualifications Authority *Rules and Procedures* publications available at www.nzqa.govt.nz/ncea/.

Reviewed standards that continue to recognise the same overall outcome are registered as new versions and retain their identification number (Id). Any version of a standard with the same Id may be used to meet qualification requirements that list the Id and/or that specify the past or current classification of the standard.

Classification

This qualification is classified according to the NQF classification system and the New Zealand Standard Classification of Education (NZSCED) system as specified below.

DAS Classification		NZSCED	
Code	Description	Code	Description
1301	Business/Public Sector Services/Public Sector Compliance Management	091199	Society and Culture/Justice and Law Enforcement/Justice and Law Enforcement not elsewhere classified

Quality Management Systems

Providers and Industry Training Organisations must be accredited by a recognised Quality Assurance Body before they can register credits from assessment against standards. Accredited providers and Industry Training Organisations assessing against standards must engage with the moderation system that applies to those standards. Accreditation requirements and the moderation system are outlined in the associated Accreditation and Moderation Action Plan (AMAP) for each standard.
